Report on National Energy conservation Day

Date of Activity: 14th December 2021

Mode of Conduct: Physical

Nature of Activity: Mandatory

Objective of the Event:

To emphasize the importance of saving Energy for future.

The day focuses on making students aware of global warming ,climate change and promotes efforts towards saving energy resources by using solar energy .

Benefits /Outcome of the Program

Students will get familiar with how to use solar energy and to understand how industries uses solar energy in different application

Student Participants number: 25

Faculty Participants number: 5

Introduction:

The national energy conservation day 2022 was celebrated in India every year on the 14th December, the day has been celebrated since 1991 and headed by Ministry of power.

The day focuses on rising awareness on climate changes and global warming. Since from 2005 the Bureau of Energy of Efficiency National Thermal Power Corporation National (NTPC) has

been organizing National Level Painting Competitions on Energy Conservation for school children

This year, the theme for the competition is '**Azadi ka Amrit Mahotsav: Energy Efficient India**' and '**Azadi ka Amrit Mahotsav: Cleaner Planet**'. Under the same theme the day was celebrated in many ways like energy conservation oaths was taken by the participants of the walkathon and different employee station and Colleges .Pamphlets on various tips of energy conservation were also distributed on the occasion of energy conservation day. The students spoke on the various topics related to the conservation energy

The objective of the activity is to promote energy conservation in young minds of the country. This type of different activities for the students would not only make the students aware about the need of conserving energy but at the same time would sensitize and involve their parents as well in the above cause. This may inculcate a habit in the minds of young children towards energy conservation which may bring behavioral change among them.

On the occasion of National energy conservation day our institute DYPIMR has organized visit for the company named Prime Energy Located at Pardeshi Vasti Gate No 61 Pune Nasilk High way which deal with in solar Panel the students got opprunities to show practical implementation of solar panel of size 472kwp .Solar panels are one of the best and fastest advancing forms of renewable energy on the market, and it's easy to see why they are so popular. They help to save energy that would have otherwise been taken from the grid, they cut your energy bills, and they can make you an excellent financial return. While the initial costs can be a little high, the payback period is comparably short. Mr.Sanjay Peshkar gave all the details about solar panels how it work etc. He also showed actual installation of solar panel

Saving energy TODAY will make TOMORROW bright."

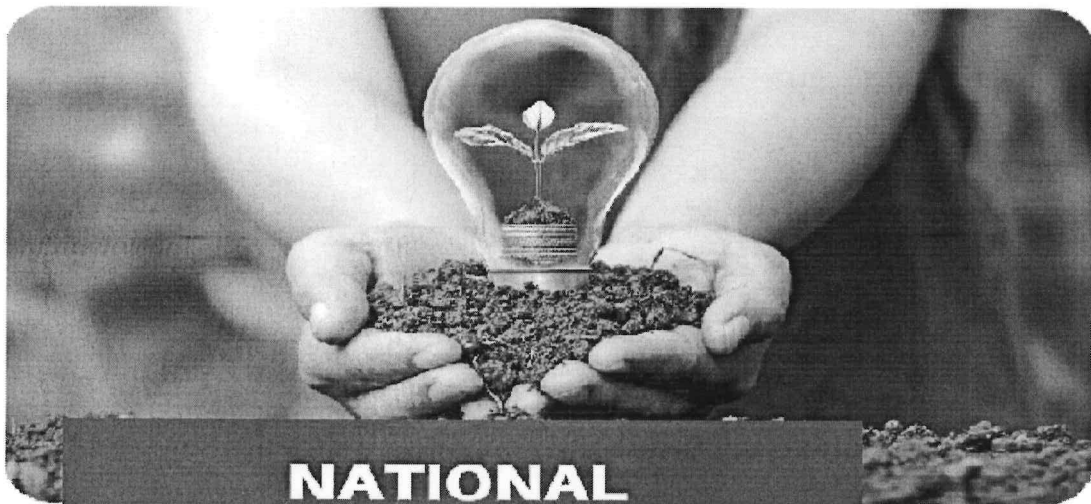

Attendance:

<u>Attendance For National Conservation Day</u>		
Date - 14/11/22		
Sr.No	Name	Sign.
17	Abhay J. Kokrisagar	
27	Kumari Rakhi	
31	Dhruvshikha Saw	
41	Sneha Kurade	
51	Adesh Bhosale	
61	Krushali Chautan	
71	Arun Chauran	
81	Vedraj S. Desai	
91	Dhawal Chaudhary (223)	
10	Aditya Jitendrawar (205)	
11	Shubham Sambrao Gaikwad (339)	
12	Akshay Mund	
13	Junal Chandrashekhar Bidavur	
14	Akshay Narresh Salunkhe	
15	Sumit Mahesh Kamble	
16	Aniket Dattaram Jpte	
17	Orbhava K. Detambar	
18	Swapnil Shankar Jambhule	
19	Jadhav Ashish Uilav	
20	Pratibha R. Phansavat	
21	Mitali M. Uhatnadikar	
22	Patel Himesha Erasa	
23	Karishma P. Shende	
24	Rohini Shelke	
25	Pijush Chaudhary	
26	Somnabhi Patil
