Report on National Pollution Control Day

Date of Activity: 2nd December 2022

Mode of Conduct: Physical

Nature of Activity: Mandatory

Objective of the Event:

To create awareness in youth and educate the people to make them aware of pollution control acts and industrial disasters.

The main objective of this day is to educate the people and to make them aware of pollution control acts and industrial disasters

Benefits /Outcome of the Program

Student Participants number: 46

Faculty Participants number: 5

Introduction:

December 2 marks National Pollution Control Day, a day dedicated to raising awareness about the severe consequences of environmental pollution. This day serves as a reminder of the tragic Bhopal Gas disaster in 1984, where numerous lives were lost due to the leakage of the toxic gas, methyl isocyanate, from the Union Carbide plant. The aim of National Pollution Control Day is to educate people about the importance of pollution control acts, promote awareness about industrial disasters, and encourage measures to prevent air, soil, and noise pollution.

Recently, DYPIMR celebrated National Pollution Control Day by organizing a street play within their campus. The play was directed by MBA and MCA students and witnessed by a large audience of students. Through their play "Dastak," the group highlighted the various types of pollution and their impact on health, especially in India. The performance addressed contemporary social issues, such as pollution, which are often ignored by society as a whole.

The play began with relatable and common experiences for everyone in India and proceeded to showcase the challenges of pollution, including soil, noise, air, and industrial pollution. The play was infused with heart-wrenching and ironic moments, creating a powerful impact on the audience. The students involved in the performance were disciplined and passionate, and their message was conveyed effectively to the audience.

Given that the audience comprised students from schools and colleges, the street play can encourage a change in mindset among the younger generation, leading to a more sustainable and pollution-free future.

Attendance:

| Sr. No. | Name | Sign |
|---------|------------------------------|------------------|
| 01) | Praveen Kumar Gupta | <u>P Gupta</u> |
| 02) | Gopali Aj. Krishna agalwal | <u>Gopali</u> |
| 3) | Saril Jain | <u>Saril</u> |
| 4) | Pratik Hijare | <u>Pratik</u> |
